

Geolocation Analysis Sheet

Analyze images and media to determine geographic location. Document visual clues, coordinate estimates, and verification methods for each piece of media examined.

Case Information

Case Ref: Analyst:
Date of Analysis: Image Count:

Image Ref	Visual Clues	Coordinate Estimate	Verification Method	Confidence	Notes
IMG_001	Eiffel Tower, Paris street signs, French language billboard	48.8584 N, 2.2945 E	Google Maps street view	High	Landmark + street signs match
IMG_002	Desert terrain, saguaro cacti, arid vegetation	32.2226 N, 110.9747 W	Reverse image search	Medium	Likely Arizona/Sonoran desert
IMG_003	Red double-decker bus, black cab, phone booth	51.5074 N, 0.1278 W	Visual clues only	High	Central London - street pattern
IMG_004	Tropical beach, palm trees, thatched roofs	8.5 S, 115.2 E	Satellite imagery cross-ref	Medium	Likely Bali, Indonesia
IMG_005	Snow-capped mountains, pine forest, wooden chalets	46.5 N, 7.5 E	Topographic map matching	Medium	Likely Swiss Alps region
IMG_006	Modern skyline, river with bridges, skyscrapers	40.7128 N, 74.0060 W	Building silhouette matching	High	Lower Manhattan, NYC
IMG_007	Mud-brick buildings, arid climate, market scene	15.5 N, 32.5 E	Language on signs - Arabic	Low	Uncertain - need more data
IMG_008	Coastal cliffs, lighthouse, foggy conditions	38.0 N, 122.0 W	Compare to lighthouse registry	Medium	Likely Northern California coast

Visual Clue Categories

Landmarks: Distinctive buildings, monuments, natural features. Signs: Street signs, billboards, storefronts, license plates. Terrain: Mountains, desert, forest, urban, coastal. Vegetation: Native plants, tree types, agriculture. Architecture: Building styles, materials, construction methods. Weather: Clouds, precipitation, seasonal indicators. Infrastructure: Power lines, roads, street lights, signage style.

Verification Methods

Google Maps/Earth: Street view and satellite comparison. Reverse Image Search: Google Images, TinEye, Yandex. Sun Position Analysis: Suncalc, shadow length, time of day. Language/Text Analysis: Signs, documents visible in image. Geographic Features: Rivers, coastlines, mountain ranges.
