1. Executive Summary

Provide a concise (250 words or fewer) summary covering: who or what was investigated, what was found, the key conclusions, and recommended next steps. Assume the reader will only read this section -- it must stand alone.

2. Investigation Background

2.1 Objective

State the original investigation objective and scope.

2.2 Methodology

Describe the OSINT techniques employed, tools used, and the rationale for selected approaches.

2.3 Legal & Ethical Framework

Document the legal authorities, data protection compliance measures, and ethical guidelines observed during the investigation.

3. Findings

Present findings in a logical, structured format. Each finding should include: evidence citation, source evaluation (Admiralty code), and confidence level.

Use the following structure for each finding:

Finding 1

Description: _____

Evidence: _____

Source rating: ____ | Confidence: ____ | Status: ☐ Confirmed ☐ Unconfirmed ☐ Disproven

Finding 2
